

As Sinclair stations use public airwaves free of charge, they are required by law to serve the public interest. They are planning to require their stations to show "Stolen Honor," an anti-Kerry documentary, near November 2. If they do show this program, then they should, in order to allow for a fair democratic presentation, also show a pro-Kerry program like "Going Upriver." The biases of Sinclair stations directly affect our nation: Sinclair stations are stifling democracy. They are not serving the needs of the entire community.
